TECHNOLOGY TEACHING EQUIPMENT

Date as postmark

Dear Smart Box Customer

The enclosed pack brings your Smart Box Manual up to date. If you think there is any further information you require, please contact our Customer Services Department who will be happy to assist.

New Smart Box Accessories

In January we launched several new accessories which extend the applications of Smart Box in Technology and Science work.

Mains Relay Unit

Smart Box can control mains devices such as spot lamps, small heaters, fans, audio equipment etc. The unit is a safe solid state relay rated at 3A. Part No.SS-455. Price £59.00.

Relay Unit

A double pole double throw relay unit, elegantly designed for easy understanding. The relay switches an external low voltage power supply at up to 40V 3A. Now you *can* control a train set! Part No.SS-440. Price £22.00.

User Sensor Adaptor

A clearly designed adaptor giving pupils easy access to the analogue ports through 4mm connections. Now they can build their own sensors very cheaply from electronic components. Part No. SS-445. Price £20.00.

All these new products are illustrated in the 1994 Economatics catalogue.

For a copy please contact our sales office. You can phone free on the Economatics Linkline 0800 526441.

Yours sincerely
