

# Odd One Out

7	16	11
100	50	25
5	15	22

Circle the number you chose from each line and then write a reason for choosing it as the odd one out.

7      16      9	I think this is the odd one out because:
Are there any similarities between the other 2 numbers?	The other 2 numbers are similar because:
100      50      25	I think this is the odd one out because:
Are there any similarities between the other 2 numbers?	The other 2 numbers are similar because:
5      15      22	I think this is the odd one out because:
Are there any similarities between the other 2 numbers?	The other 2 numbers are similar because:
